

***Amendments to the Claims:***

This listing of claims will replace all prior versions, and listings, of claims in the application.

***Listing of claims:***

1. (Currently Amended) A patch comprising a backing layer and an adhesive layer disposed on the backing layer and compounded with an adhesive agent and oxybutynin and/or a pharmaceutically acceptable salt thereof,

wherein the adhesive layer comprising comprises

~~at least one acrylic polymer selected from the group consisting of 2-ethylhexyl acrylate-N-vinyl-2-pyrrolidone-1,6-hexane glycol dimethacrylate terpolymer and~~ 1-5% by weight of a 2-ethylhexyl acrylate-vinyl acetate copolymer based on the total weight of the adhesive agent, wherein the at least one acrylic polymer the 2-ethylhexyl acrylate-vinyl acetate copolymer being ~~[[is]]~~ substantially free of both carboxyl groups and hydroxyl groups in the molecule; and

10-25% by weight of a styrene-isoprene-styrene block copolymer based on the total weight of the adhesive agent,

wherein the weight ratio of the ~~at least one acrylic polymer~~ 2-ethylhexyl acrylate-vinyl acetate copolymer to the styrene-isoprene-styrene block copolymer is from 1:4 to 1:19.

2. (Currently Amended) The patch according to claim 1, wherein the adhesive layer comprises ~~0.5-10% by weight of the at least one acrylic polymer, 5-40% by weight of the styrene-isoprene-styrene block copolymer and~~ 10-60% by weight of an alicyclic saturated hydrocarbon resin-based tackifier, based on the total weight of the compounds contained in the adhesive layer.

3. (Currently Amended) The patch according to claim 2, wherein weight ratio of the ~~at least one acrylic polymer~~ 2-ethylhexyl acrylate-vinyl acetate copolymer ~~together with the styrene-isoprene-styrene block copolymer,~~ to the tackifier is from 1:1 to 1:3.

4-7. (Canceled)

8. (Previously presented) The patch according to claim 1, wherein the adhesive layer is compounded with oxybutynin hydrochloride.

9. (Previously presented) The patch according to claim 1, wherein the adhesive agent further comprises an organic acid.

10. (Previously Presented) The patch according to claim 9, wherein the organic acid is at least one selected from the group consisting of acetic acid, citric acid and salts thereof.
